

"How To Find The Tax Resources You Need"

A tax resource ebook by Peg Bastin

Here's How To Lower Your Taxes!

Dear Fellow Taxpayer,

Shhhhhhhhh!

Be very quiet for a moment...

Do you hear that faint sucking noise coming from your checkbook? That's the sound of money flying out the window because you're not taking advantage of all the tax resources available to you.

It's true. Every month you could be throwing hundreds, or thousands of dollars down the drain. Would you like Uncle Sam to pick up the cost of running your small business?

Congress has told the IRS to give thousands of dollars in Tax Refunds and Deductions to ANYONE who has a small or home-based business now, OR

who had one at anytime in the past 3 years. You probably qualify!

I've looked for tax resources and tools to help you qualify for all the tax deductions and tax refunds that you may be entitled to as a business owner.

On these pages are links to the many helpful websites that offer free or low-cost resources to help you file your taxes. You will find how to:

- Claim all legitimate deductions
- Find free forms to download
- Keep accurate records
- Turn your home office into a tax deduction
- Prepare your tax return
- Choose a tax preparer
- Claim travel, meals, and entertainment deductions
- Claim medical expenses
- Claim child labor
- Make your car expenses deductible
- Write off more long distance telephone services
- Resolve tax problems
- Get your refund
- And much more

I hope that this little book will help make your tax filing experience a little easier this year.

May you all save a bundle!
